

Google Docs Add-ons:

[Tag Cloud Generator](#): create word cloud in the right-hand margin of any Google Document that contains more than one hundred words.

[EasyBib Bibliography Creator](#): makes it easy to properly cite resources and format a bibliography in APA, MLA, or Chicago style.

[Easy Accents](#): Add-on that provides a virtual keyboard that enables students and teachers to quickly insert the letters and accents found in over 20 languages.

[g\(Math\)](#): enables you to easily insert graphs and equations into your Google Documents. The Add-on opens in the right side of your document and from there you can insert the parameters of your graph and or generate equations. * Can also be added in Google Forms

[Extensis Fonts](#): Collection of 1200+ fonts to use

[Openclipart](#): Over 50,000 images without having to switch over to Google Search
